Lemon-Aid New and Used Cars and Trucks 1990-2015 steers the confused and anxious buyer through the purchase of new and used vehicles unlike any other car-and-truck book on the market. "Dr. Phil," Canada's best-known automotive expert for more than 42 years, pulls no punches.

Hatchback. Does not cover 500 Abarth or features specific to Convertible. Petrol: 1.1 litre (1108cc) & 1.2 litre (1242cc). Does not cover 0.9 litre Twinair or 1.4 litre petrol engines. Diesel: 1.3 litre (1248cc)

Available again after a long absence! Always big on character and charm, Fiat 's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these ' baby ' Fiats. Built, and exported to, many countries outside of the marque ' s native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars ' tiny chassis by Italy ' s leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves.

"A visual celebration of the iconic car of Italy's fashionable dolce vita boom years. The Fiat 500, which began production in 1957, is the iconic car of Italy's free-spirited boom years, when Italian films, fashion, and design took the world by storm. The car remains immortalized in America's imagination and is much sought after by collectors and anyone with a nostalgic love for la dolce vita. This book celebrates the 500 for both its groundbreaking design and its role as a pop-culture icon. Despite its diminutive size, it proved to be enormously practical and popular. It was an instant hit with the Cinecitta movie stars as well as with American tourists absorbing Italy's local color. The book features an array of vintage images of the 500, including film stills, paparazzi shots, and advertising, in addition to more serious chapters on design. The publication of this handsome tribute volume is timed with Fiat's release in the United States of its updated version of the car for the twenty-first century, the Fiat Nuova 500"--Publisher's description.

" Dr. Phil, " Canada ' s best-known automotive expert, invites another driver to come aboard. After forty-six years and almost two million copies sold, Phil Edmonston is joined by a co-pilot for the Lemon-Aid Guide — George Iny, along with the editors of the Automobile Protection Association. The 2017 Lemon-Aid has everything: an encyclopedic lineup of the best and worst cars, trucks, and SUVs sold since 2007; secret warranties and tips on the " art of complaining " to help you get your money back; and new-car buying tips that will save you tons of money by revealing the inflated cost of fancy and frivolous add-ons. Lemon-Aid is an essential guide for careful buyers and long-time gear-heads who don't know as much as they think.

Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got The Yugo: The Rise and Fall of the Worst Car in History. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

A guide to engine rebuilding includes discussions of removal, parts identification, cylinder head reconditioning, and engine assembly

Helps drivers learn how to protect the environment by suggesting good driving practices, proper car maintenance, recycling automotive items, following manufacturers' operational recommendations, & considering the environment when buying a car. Additional topics include proper tire pressure, gasolines & fuels, motor oils, emission controls, cooling systems, & finding a good automotive repair shop. Covers common myths about cars & the environment & provides valuable information in an easy-to-read format. Illustrated.
