Britney Spears' Backstreet Boys collaboration, 'Matches', is out now on the deluxe edition of her 2016 album 'Glory'.

This nostalgic, fully-illustrated history of boy bands -- written by culture critic and boy band stan Maria Sherman -- is a must-have for diehard fans of the genre and beyond. The music, the fans, the choreography, the clothes, the merch, the hair. Long after Beatlemania came and went, a new unstoppable boy band era emerged. Fueled by good looks and even greater hooks, the pop phenomenon that dominated the '80s, '90s, and 2000s has left a long-lasting mark on culture, and it's time we celebrate it. Written by super fan Maria Sherman for stans and curious parties alike, Larger Than Life is the definitive guide to boy bands, delivered with a mix of serious obsession and tongue-in-cheek humor. Larger Than Life begins with a brief history of male vocal groups, spotlighting The Beatles, the Jackson 5, and Menudo before diving into the building blocks of these beloved acts in "Boy Bands 101." She also focuses on artists like New Edition, New Kids on the Block, Backstreet Boys, \*NSYNC, One Direction, and BTS before ending with an interrogation into the future of boy bands. Included throughout are Tiger Beat-inspired illustrations, capsule histories of the swoon-iest groups, in-depth investigations into one-hit wonders, and sidebars dedicated to conspiracy theories, dating, in-fighting, haters, fan fiction, fashion (Justin and Britney in denim, of course), and so much more. Informative, affectionate, funny, and never, ever fan-shaming, Larger Than Life is the first and only text of its kind: the ultimate celebration of boy bands and proof that this once maligned music can never go unappreciated.

"I had a real romance with this book." —Miranda July A highly anticipated collection, from the writer Maggie Nelson has called, “ bracingly good...refreshing and welcome, ” that explores the myriad ways in which desire and commodification intersect. From graffiti gangs and Grand Theft Auto to sugar daddies, Schopenhauer, and a deadly game of Russian roulette, in these essays, Chelsea Hodson probes her own desires to examine where the physical and the proprietary collide. She asks what our privacy, our intimacy, and our own bodies are worth in the increasingly digital world of liking, linking, and sharing. Starting with Hodson ' s own work experience, which ranges from the mundane to the bizarre—including modeling and working on a NASA Mars mission— Hodson expands outward, looking

at the ways in which the human will submits, whether in the marketplace or in a relationship. Both tender and jarring, this collection is relevant to anyone who's ever searched for what the self is worth. Hodson's accumulation within each piece is purposeful, and her prose vivid, clear, and sometimes even shocking, as she explores the wonderful and strange forms of desire. *Tonight I'm Someone Else* is a fresh, poetic debut from an exciting emerging voice, in which Hodson asks, "How much can a body endure?" And the resounding answer: "Almost everything."

When the final episode of *Buffy the Vampire Slayer* aired in 2003, fans mourned the death of the hit television series. Yet the show has lived on through syndication, global distribution, DVD release, and merchandising, as well as in the memories of its devoted viewers. *Buffy* stands out from much entertainment television by offering sharp, provocative commentaries on gender, sexuality, race, ethnicity, and youth. Yet it has also been central to changing trends in television production and reception. As a flagship show for two U.S.

"netlets"—the WB and UPN—*Buffy* helped usher in the "post-network" era, and as the inspiration for an active fan base, it helped drive the proliferation of Web-based fan engagement. In *Undead TV*, media studies scholars tackle the *Buffy* phenomenon and its many afterlives in popular culture, the television industry, the Internet, and academic criticism. Contributors engage with critical issues such as stardom, gender identity, spectatorship, fandom, and intertextuality. Collectively, they reveal how a vampire television series set in a sunny California suburb managed to provide some of the most biting social commentaries on the air while exposing the darker side of American life. By offering detailed engagements with Sarah Michelle Gellar's celebrity image, science-fiction fanzines, international and "youth" audiences, *Buffy* tie-in books, and Angel's body, *Undead TV* shows how this prime-time drama became a prominent marker of industrial, social, and cultural change. Contributors: Ian Calcutt, Cynthia Fuchs, Amelie Hastie, Annette Hill, Mary Celeste Kearney, Elana Levine, Allison McCracken, Jason Middleton, Susan Murray, Lisa Parks

The New York Times bestselling true story of an all-American girl and a boy from Zimbabwe -- and the letter that changed both of their lives forever. It started as an assignment. Everyone in Caitlin's class wrote to an unknown student somewhere in a distant place. Martin was lucky to even receive a pen-pal letter. There were only ten letters, and fifty kids in his class. But he was the top student, so he got the first one. That letter was the beginning of a correspondence that spanned six years and changed two lives. In this compelling dual memoir, Caitlin and Martin recount how they became best friends--and better people--through their long-distance exchange. Their story will inspire you to look beyond your own life and wonder about the world at large and your place in it.
