"Christ in Concrete" (1939) as a chronicle of the experience of Italian immigrants in the United States during the twenties and early thirties. The literary analysis involves a thematic and stylistic study, focusing on the work's modern, realistic, naturalistic, romantic and classic qualities. In addition, this study places "Christ in Concrete" in both the American as well as the Italian American literary tradition.

Francesca Maria Cabrini was born in 1850 in a small village on the Lombard Plain of Italy. At the moment of her birth, a cloud of snow-white doves appeared and circled the village, an augury of her future sanctity. Tiny frail and sickly, she was enthralled as a child by tales of the adventures of missionaries to faraway lands, and grew up with one burning desire: to join a religious order and tend to the physical and spiritual needs of the people of China. But no order would have her—her health was deemed too precarious. But

her dream remained, and she set out to see it realized. Her first step, a formidable one, was obtaining an audience with His Holiness, Pope Leo XIII. This she did, after overcoming many obstacles. It was a meeting that would change her life, and the lives of so many in America. Mother Cabrini was granted her wish to start an orphanage abroad-but not in China, as she had requested. "Not East, but West, my child," said Pope Leo, and her path was set. for rehabilitation. This book examines the various problems caused by non-uniform deformation changes, poor durability, and natural and human disasters such as earthquakes and fire. Attention is given to the causes and mechanisms of the deterioration. General procedures and commonly used techniques for inspection and evaluation of existing infrastructures are introduced. The desk study, destructive test, and non-destructive test are discussed - in particular the newly developed non-destructive methods for deterioration monitoring. The book then moves on to

conventional renovation techniques such as patch and steel plate strengthening, which meet the requirements of normal practice. Special attention is paid to compatibility between repair materials and degraded materials. Fibrous composite materials are then introduced as a basis for innovative repair techniques, and different fibre and matrix properties are outlined, as are newly developed inorganic binders as a matrix for fibrous composites. Finally, advanced rehabilitation techniques using fibrous composite are described. Fundamental issues such as bonding and failure mechanisms are

then discussed in detail. Fibrous composite strengthening techniques for beam, wall, column and slabs are covered, including shear strengthening, flexural strengthening, and fillet winding, as are codes of practice for retrofitting with fibrous composites. This caters to students and academics world-wide and serves as a "tool book" for concrete and structural engineering professionals.

targeted at the intersection of story and truth. The Coffee House Chronicles are short, easily devoured novellas aimed at answering prevalent spiritual questions. Each book in the series tackles a long-contested question of the faith, and then answer these questions with truth through relationships and dialogue in each story. In *Who is Jesus, Really?: A Dialogue on God, Man, and Grace*, the group of students now meeting at the coffee house at a college town in Texas come face-to-face with the implications of the person and works of Jesus Christ. Their questions and conversations lead them to creatively respond
