According to Entrepreneur.com, more than 400 billion cups of coffee are consumed every year in the United States alone, and "most successful coffeehouses have heavy foot traffic and high-volume sales ... [serving] up to 500 customers per day." You will need to constantly serve coffee to regular customers and be able to attract new clients, since your drinks will likely cost only about \$3 or \$4 each, in order to break even or make money. Although the cost of the coffee itself is quite low and coffee shops frequently mark up their products significantly, the idea is to achieve volume in your sales. Starting a coffee shop might sound like fun, but it also involves a lot of hard work. It's important to fully research your business before you begin so you'll know what you're getting into, both in terms of finances and managerial responsibilities.

From their eponymous 1978 debut through their colossal 1984 album (they've sold over 75 million albums worldwide), Van Halen rewrote all the rules. Nobody rocked or partied harder. Photographer Neil Zlozower first met the band in 1978, worked with them again on Van Halen II, and soon became their friend, hanging out in L.A. and hitting the road on tour with them. Van Halen collects more than 250 backstage, candid, and full rock-out photos of the all-powerful, spandexed, high-kicking, guitar blazing, stadium-shaking, original Van Halen lineup. Accompanying Zlozower's amazing photos are an introduction about his wild ride with VH, a foreword by David Lee Roth, and testimony from the rock pantheon paying homage to the band, including members of Led Zeppelin, Guns N' Roses, Def Leppard, Judas Priest, KISS, Motley Cre, and more. It considers theoretical questions and contains wide-ranging case studies to support the arguments made. It relates urbanisation in the developing world to changes in the broader global economic system, as well as looking at the urbanisation process over time.
