even, Even Steven gets to move one place. If the number is odd, Odd Todd gets to move one place. The winner is the first one to get to the finish line. You may like to extend this game by having your students roll two or three dice, adding/multiplying them together and then deciding if the number is odd or even.

Odd Todd & Even

Steven - Cara Carroll

This game is based off of the book "Even Steven and Odd Todd" and reinforces the concept of even and odd numbers. Students take turn rolling a die and can only move even numbers of spaces (if Steven) and odd numbers of spaces (if Todd).

Todd is a great Math book! Even Steven likes everything in his day to be an even number. For example, he like to eat an even number of pancakes for breakfast, he wakes up at an even time (8) and he even had 12 sprinklers on his lawn. His cousin, Odd Todd, is just the opposite. He loves odd numbers and odd things.
