European private international law, as it stands in the Rome I, II, and III Regulations and the recent Succession Regulation, presents manifold risks of diverging judgments despite seemingly harmonised conflict of law rules. There is now a real danger, in light of the rapid increase in the number of legal instruments of the European Union on conflict of laws, that European private international law will become incoherent. This collection of essays by twenty noted scholars in the field sheds clear light on the pivotal issues of whether a set of overarching rules (a 'general part') is required, whether an EU regulation is the adequate legal instrument for such a purpose, which general questions such an instrument should address, and what solutions such an instrument should provide. In analysing the possible emergence of general principles in European private international law over the past years, the contributors discuss such

issues and factors as the following: - the relationship between conflict of laws and recognition; - the room for party autonomy; - the concept of habitual residence; - adaptation when interplay between different laws leads to deadlock; - public policy exceptions; - the desirability of a general escape clause; - the classic topics of characterisation, incidental question, and renvoi; and - right to appeal in case of errors in the application of foreign law. Practitioners dealing with these notoriously difficult cases will welcome this in-depth treatment of the issues, as will interested policymakers throughout the EU Member States and at the EU level itself. Scholars will discover an incomparable comparative analysis leading to expert recommendations in European private international law, opening the way to an effective European framework in this area.

In the Collected Courses of the Xiamen Academy of International Law Hans van Loon, Former Secretary-General of The Hague Conference of Private International Law, Prof. Bimal N. Patel, Director of Gujarat National Law University, India, and Prof. Ernst Ulrich Petersmann of the European University Institute in Florence, provide insightful, perspicacious and concise analysis of recent developments in international law .

In the twenty-first century the Arctic is undergoing profound change. As the sea ice melts, a result of accelerating climate change, global governance has become vital. In this, the third of three volumes, the latest research and analysis from the world's leading Arctic research body - the Fridtjof Nansen Institute - is brought together for the first time. *Arctic Governance: Norway, Russia and Asia* investigates the foreign policy discourses of Arctic governance, specifically as regarding international relations and competing interests between Norway, Russia and various Asian states.

South African Human Resource Management focuses on the knowledge and skills that managers at all levels need. The authors integrate contemporary international research and implementation with a South African perspective.

Dit boek bespreekt de grondslagen van het conflictenrecht alsmede de wijze waarop het conflictenrecht en het vreemde recht worden behandeld in gerechtelijke en arbitrale procedures. De eerste hoofdstukken gaan in op de historische ontwikkeling van het conflictenrecht en zijn moderne grondslagen. Daarbij wordt onder meer uiteengezet op welke wijze het internationale recht (inclusief mensenrechten en investeringsverdragen) alsook het communautaire recht invloed kunnen uitoefenen op het conflictenrecht en het resultaat van de verwijzing. De volgende hoofdstukken gaan na hoe de grondslagen van het conflictenrecht zich vertalen naar de praktijk. Daartoe onderzoekt de auteur hoe het conflictenrecht wordt behandeld in procedures bij de rechtbanken, de gerechtshoven en de Hoge Raad en hoe het procesrecht ingrijpt op die behandeling. In dat verband blijkt dat de processuele behandeling van het conflictenrecht per instantie verschilt en dat van een volledig ambtshalve conflictenrecht geen sprake is. Vervolgens komt aan bod wat de positie is van het vreemde recht in procedures bij de rechtbanken, de gerechtshoven en de Hoge Raad, hoe de inhoud van het vreemde recht moet worden vastgesteld en wat er dient te geschieden als dat niet lukt binnen een bekwame termijn. Ook besteedt de auteur aandacht aan de conflictenrechtelijke belangeneis en het facultatief

conflictenrecht. Tot slot wordt ingegaan op de wijze waarop het conflictenrecht een rol speelt in arbitrage. In dat verband bespreekt de auteur op welke wijze het toepasselijke recht moet worden bepaald inzake de arbitrabiliteit, de bevoegd- en bekwaamheid van partijen, de arbitrageovereenkomst, de regels die het arbitraal geding betreffen en het materiële geschil dat partijen verdeeld houdt.
