Anton Myrer's "Once An Eagle" is a magnificently written novel, on an epic scale, of life in the United States Army from World War I to Vietnam. In it, Myrer, a World War II Marine Corps veteran, describes the highs and lows of the life of a soldier, from the adrenaline rush and awful fear of close combat to the dreary routine of dilapidated peacetime army posts between the World Wars. Myrer ...

Once An Eagle In 1968, Anton Myrer, a Marine Corps veteran of WWII in the Pacific, wrote an epic war novel, "Once an Eagle," which became an instant best seller in the military. The two main characters represent two extremes of the types of people you meet in the military, with most of us somewhere in-between. The hero, Sam Damon, is always being told to swallow his ethical code for the good ...

"Once an Eagle is simply the best work of fiction on leadership in print." —General Martin E. Dempsey, 18th Chairman of the Joint Chiefs of Staff Required reading for West Point and Marine Corps cadets, Once An Eagle is the story of one special man, a soldier named Sam Damon, and his adversary over a lifetime, fellow officer Courtney Massengale. Damon is a professional who puts duty, honor, and the men he commands above self-interest. Massengale, however, brilliantly advances by making the right connections behind the lines and in Washington's corridors of power. Beginning in the French countryside during the Great War, the conflict between these adversaries solidifies in the isolated garrison life marking peacetime, intensifies in the deadly Pacific jungles of World War II, and reaches its treacherous conclusion in the last major battleground of the Cold War—Vietnam. Now reissued with a new foreword by acclaimed historian Carlo D'Este, here is an unforgettable story of a man who embodies the best in our nation—and in us all.

Once An Eagle is the story of one special man, a soldier named Sam Damon, and his adversary over a lifetime, fellow officer Courtney Massengale. Damon is a professional who puts duty, honor, and the men he commands above self interest. Massengale, however, brilliantly advances by making the right connections behind the lines and in Washington's corridors of power. Beginning in the French countryside during the Great War, the conflict between these adversaries solidifies in the isolated garrison life marking peacetime, intensifies in the deadly Pacific jungles of World War 11, and reaches its treacherous conclusion in the last major battleground of the Cold War -- Vietnam. A study in character and values, courage, nobility, honesty, and selflessness, here is an unforgettable story about a man who embdies the best in our nation -- and in us all.

The conflict in outlook and strategy between Courtney Massengale, a commissioned officer, and Sam Damon, who has risen through the ranks, is traced throughout the two world wars.

Book description to come.

They were our husbands, our fathers, our lovers, our sons. They were Americans and Marines. And this is their story: The Big War, Anton Myrer's panoramic novel of Marines in the Pacific in World War II. This is the story of Alan Newcombe, the Boston society Harvard man; Danny Kantaylis, the natural-born leader; Jay O'Neill, the barroom scrapper. Myrer does not glorify war; he does not flinch from describing what the actual experience of warfare was like for a desperate group of Marines trapped in some of the worst fighting conditions of the war. We learn about their lives at home and their fates on the battlefield.

Two brothers, as different as night and day: one, charming and ruthless, buys his way into Harvard, Wall Street, and high society; the other brother remains by his mother's side and makes his way to the top without the influence of money or prestige. Raised in separate worlds, these brothers are bound by a bitter rivalry for riches and power, but mostly, for the exciting, wildly captivating woman they fight all their lives to possess, a woman whose passion for one destroys her love for the other. Their story consumes an American century, spanning decades of splendor, struggle, upheaval, and war. It's an absorbing saga of innocent dreams and green desire corrupted by gilded temptation.

In an effort to draw out the Union Army of the Potomac, the Confederate Army invades the North, and the armies clash in a bloody battle at Gettysburg, Pennsylvania, for four days.

James Webb's classic, scorching novel of the Vietnam War. They each had their reasons for becoming a Marine. They each had their illusions. Goodrich came fresh from Harvard. Snake got the tattoo before he even got the uniform. Hodges was haunted by the spirits of family heroes. Three young men, from vastly different worlds, were plunged into a white-hot, murderous melting pot of jungle warfare in the An Hoa Basin, Vietnam, 1969. They had no way of knowing what awaited them. For nothing could have prepared them for the madness of what they found. And in the heat and horror of battle they took on new identities, took on each other, and were reborn in fields of fire... Fields of Fire is a searing story of poetic power, razor-sharp observation, and non-stop combat, perfect for fans of Tim O'Brien, Karl Marlantes and Apocalypse Now. Praise for Fields of Fire 'Few writers since Stephen Crane have portrayed men at war with such a ring of steely truth' The Houston Post 'A novel of such fullness and impact, one is tempted to compare it to Norman Mailer's The Naked and the Dead' The Oregonian 'Webb gives us an extraordinary range of acutely observed people, not one a stereotype ... Fields of Fire is a stunner' Newsweek 'Webb pulls off the scabs and looks directly, unflinchingly on the open wounds of the Sixties' Philadelphia Inquirer 'The unmistakable sound of truth' Time

At a secret arms-design contest in Stalin's Soviet Union, army technicians submitted a stubby rifle with a curved magazine. Dubbed the AK-47, it was selected as the Eastern Bloc's standard arm. Scoffed at in the Pentagon as crude and unimpressive, it was in fact a breakthrough—a compact automatic that could be mastered by almost anyone, last decades in the field, and would rarely jam. Manufactured by tens of millions in planned economies, it became first an instrument of repression and then the most lethal weapon of the Cold War. Soon it was in the hands of terrorists. In a searing examination of modern conflict and official folly, C. J. Chivers mixes meticulous historical research, investigative reporting, and battlefield reportage to illuminate the origins of the world's most abundant firearm and the consequences of its spread. The result, a tour de force of history and storytelling, sweeps through the miniaturization and distribution of automatic firepower, and puts an iconic object in fuller context than ever before. The Gun dismantles myths as it moves from the naïve optimism of the Industrial Revolution through the treacherous milieu of the Soviet Union to the inside records of the Taliban. Chivers tells of the 19th-century inventor in Indianapolis who designs a Civil War killing machine, insisting that more-efficient slaughter will save lives. A German attaché who observes British machine guns killing Islamic warriors along the Nile advises his government to amass the weapons that would later flatten British ranks in World War I. In communist Hungary, a locksmith acquires an AK-47 to help wrest his country from the

Kremlin's yoke, beginning a journey to the gallows. The Pentagon suppresses the results of firing tests on severed human heads that might have prevented faulty rifles from being rushed to G.I.s in Vietnam. In Africa, a millennial madman arms abducted children and turns them on their neighbors, setting his country ablaze. Neither pro-gun nor anti-gun, *The Gun* builds to a terrifying sequence, in which a young man who confronts a trio of assassins is shattered by 23 bullets at close range. The man survives to ask questions that Chivers examines with rigor and flair. Throughout, *The Gun* animates unforgettable characters—inventors, salesmen, heroes, megalomaniacs, racists, dictators, gunrunners, terrorists, child soldiers, government careerists, and fools. Drawing from years of research, interviews, and from declassified records revealed for the first time, he presents a richly human account of an evolution in the very experience of war.

*The Fifty-Year Wound* is the first cohesively integrated history of the Cold War, one replete with important lessons for today. Drawing upon literature, strategy, biography, and economics -- plus an inside perspective from the intelligence community -- Derek Leebaert explores what Americans sacrificed at the same time that they achieved the longest great-power peace since Rome fell. Why did they commit so much in wealth and opportunity with so little sustained complaint? Why did the conflict drag on for decades? What did the Cold War do to the country, and how? What was lost while victory was gained? Leebaert has uncovered an astonishing array of never-published documents and information, including major revelations about American covert operations and Soviet military activities. He has found, in the shadows of one of this century's great, epic stories, the sort of details and explanations that hit with the force of a lightning bolt and will change forever the way we think about our past.
