The book analyzes different critical attitudes towards European integration from a multidisciplinary perspective. By applying both quantitative and normative-theoretical approaches, the contributors assess the causes and effects of the popularity of EU-critical positions and doctrines, such as souverainism, neo-nationalism and neo-populism. The book also presents country studies to compare populist movements and parties, such as the Five Stars Movement in Italy, Syriza in Greece and UKIP in the UK. It offers insights into the historical and normative roots of the diverse anti-European standpoints, and the various political demands and agendas connected with these views, ranging from rejections of EU institutions to demands for institutional reforms and propositions for alternative projects.

"When the sixteen-year-old Octavio Paz (1914-1998) discovered *The Waste Land* in Spanish translation, it 'opened the doors of modern poetry'. The influence of T S Eliot would accompany Paz throughout his career, defining many of his key poems and pronouncements. Yet Paz's attitude towards his precursor was ambivalent. Boll's study is the first to trace the history of Paz's engagement with Eliot in Latin American and Spanish periodicals of the 1930s and 40s. It reveals the fault lines that run through the work of the dominant figure in recent Mexican letters. By positioning Eliot in a Latin American context, it also offers new perspectives on one of the capital figures of Anglo-American modernism."

The founder and CEO of Askinosie Chocolate, an award-winning craft chocolate factory, shows readers how he discovered the secret to purposeful work and business – and how we can too, no matter what work we do. Askinosie Chocolate is a small-batch, award winning chocolate company widely considered to be a vanguard in the industry. Known for sourcing 100% of his cocoa beans directly from farmers across the globe, Shawn Askinosie has pioneered direct trade and profit sharing in the craft chocolate industry with farmers in Tanzania, Ecuador, and the Philippines. In addition to developing relationships with smallholder farmers, the company also partners with schools in their origin communities to provide lunch to 1,600 children every day with no outside donations. Twenty-five years ago, Shawn Askinosie was a successful criminal defense lawyer trying his first murder death penalty case that would later go on to become a Dateline special. For many years he found law satisfying, but after several high profile trials he reached a breaking point and found solace in the search for a new career. In this inspiring guide to discovering a vocation that feeds your heart and soul, Askinosie describes his quest to discover more meaningful work – a search that led him to volunteering in the palliative care wing of a hospital, to a Trappist monastery where he became inspired by the monks focus on “ being ” rather than “ doing, ” and eventually traipsing through jungles across the globe in search of excellent cocoa bean farmers to make award winning chocolate. Askinosie shares his hard-won insights into doing work that reflects one ’ s values and purpose in life. He shares with readers visioning tools that can be used in any industry or field to create a work life that is inspired and fulfilling. Askinosie shows us that everyone has the capacity to find meaning in their work and be a positive force for good in the world.

Award-winning speaker and business consultant Joey Coleman teaches audiences and companies all over the world how to turn a one-time purchaser into a lifelong customer. Coleman's theory of building customer loyalty isn't about focusing on marketing or closing the sale: It's about the First 100 Days® after the sale and the interactions the customer experiences. While new customers experience joy, euphoria, and excitement, these feelings quickly shift to fear, doubt, and uncertainty as buyer's remorse sets in. Across all industries, somewhere between 20%-70% of newly acquired customers will stop doing business with a company within the first 100 days of being a new customer because they feel neglected in the early stages of customer onboarding. In *Never Lose a Customer Again*, Coleman offers a philosophy and methodology for dramatically increasing customer retention and as a result, the bottom line. He identifies eight distinct emotional phases customers go through in the 100 days following a purchase. From an impulse buy at Starbucks to the thoughtful purchase of a first house, all customers have the potential to experience the eight phases of the customer journey. If you can understand and anticipate the customers' emotions, you can apply a myriad of tools and techniques -- in-person, email, phone, mail, video, and presents -- to cement a long and valuable relationship. Coleman's system is presented through research and case studies showing how best-in-class companies create remarkable customer experiences at each step in the customer lifecycle. In the "Acclimate" stage, customers need you to hold their hand and over-explain how to use your product or service. They're often too embarrassed to admit they're confused. Take a cue from Canadian software company PolicyMedical and their challenge of getting non-technical users to undergo a complex installation and implementation process. They turned a series of project spreadsheets and installation manuals into a

beautiful puzzle customers could assemble after completing each milestone. In the "Adopt" stage, customers should be welcomed to the highest tier of tribal membership with both public and private recognitions. For instance, Sephora's VIB Rogue member welcome gift provides a metallic membership card (private recognition) and a members-only shade of lipstick (for public display). In the final stage, "Advocate," loyal customers and raving fans are primed to provide powerful referrals. That's how elite entrepreneurial event MastermindTalks continues to sell-out their conference year after year - with zero dollars spent on marketing. By surprising their loyal fans with amazing referral bonuses (an all-expenses paid safari?!) they guarantee their community will keep providing perfect referrals. Drawing on nearly two decades of consulting and keynoting, Coleman provides strategies and systems to increase customer loyalty. Applicable to companies in any industry and of any size (whether measured in employee count, revenue, or total number of customers), implementing his methods regularly leads to an increase in profits of 25-100%. Working with well-known clients like Hyatt Hotels, Zappos, and NASA, as well as mom-and-pop shops and solo entrepreneurs around the world, Coleman's customer retention system has produced incredible results in dozens of industries. His approach to creating remarkable customer experiences requires minimal financial investment and will be fun for owners, employees, and teams to implement. This book is required reading for business owners, CEOs, and managers - as well as sales and marketing teams, account managers, and customer service representatives looking for easy to implement action steps that result in lasting change, increased profits, and lifelong customer retention.

"Who Is God?" is a Bible Lesson Series that attempts to help the reader understand the character of God. Many people go through life knowing about God, but not fully knowing and understanding His true character. In these lessons, you will learn some of the names of God as they describe who God is and what He means in our lives.

The beautiful design of the Alpine Renault ' berlinettes ' and their extraordinary performances in competition made them the cars to beat in the late 1960s and early 1970s. This book brings to life the efforts, successes and failures of the engineers and drivers that worked with the cars, and explores the berlinettes ' development and history in fascinating detail.
