A global account of military strategy, which examines the practices, rather than the theories, of the most significant military figures of the past 400 years Strategy has existed as long as there has been organised conflict. In this new account, Jeremy Black explores the ever-changing relationship between purpose, force, implementation and effectiveness in military strategy and its dramatic impact on the development of the global power system. Taking a 'total' view of strategy, Black looks at leading powers -- notably the United States, China, Britain and Russia -- in the wider context of their competition and their domestic and international strengths. Ranging from France's Ancien Regime and Britain's empire building to present day conflicts in the Middle East, Black devotes particular attention to the strategic practice and decisions of the Kangxi Emperor, Clausewitz, Napoleon and Hitler.

This new and comprehensive book will give you exactly what you need to understand and comply with the law. It provides an overview of the provisions for the new Bankruptcy Reform Act including new sanctions provisions in Chapter 7 cases; regulation of attorneys as debt relief agencies; heightened requirements for reaffirmation agreements.

"From investing in education and affording a home to choosing the right credit products and adequately saving for retirement, Operation Money offers military-specific advice to achieving financial stability." --Michael E. O'Neill, Chairman, Citigroup Inc., First Lieutenant, U.S. Marine Corps, 1969-1971 When it comes to money, military service members and their families face financial challenges that civilians simply don't. While serving on active duty, members of the military are typically asked to move every few years and must learn how to manage money during multiple deployments. And managing the finances means figuring out a way to maintain a balanced budget while communication is limited. Meanwhile, the spouse at home is essentially functioning as a single parent without the necessary skills and tools to make serving as the family's Chief Financial Officer as easy as possible. That is, until now. Jean Chatzky, financial editor for NBC's Today show, is here to help with Operation Money, a mission-based guide that provides detailed resources to prevent money problems before they happen; gives you the tools to manage through a tough situation if you're already facing one; and empowers you to figure out how best to plan for your future--either in or out of the military--and then assists you in doing so. The chapters throughout focus on saving, debt, credit, buying and financing a home, buying and financing a car, paying for college, protecting the ones you love with insurance and an estate plan, dealing with a relocation, managing money through a deployment, handling a furlough, retirement, divorce, and the financial aspects of caregiving. With contributions from Blue Star Families, MSCNN, and other military related organizations, Operation Money is a must-read for those who serve that are looking to take charge of their financial present and future. The enhanced edition includes video tips and advice from Jean Chatzky, as well as a bonus section featuring interviews with military spouses and veterans who share their personal financial stories with Jean. Operation Money is published and available free-of-charge thanks to the generous support of Citi. Becoming a military millionaire doesnt require a big salary, corporate bonus checks or tremendous prowess in the stock market. It does require taking advantage of the generous resources the military off ers, using a systemic approach to investing in your future, and avoiding the pitfalls that people routinely fall in because they dont have a plan. I believe that wealth is obtainable to the military professional without sacrificing devotion to duty or family. Its simply a matter of loading up your fi nancial rucksack with the goals, a plan, the right information and applying sound lifestyle habits that take advantage of whats available to you as a service member or family member and avoiding poor fi nancial and lifestyle decisions. Id like to give you the answers to the test in advance so you can get it right the fi rst time. So come on and follow me!
