War Letters 1914 1918, Vol. 2 War Letters 1914 1918

A great little short book filled with letters from a young subaltern, Wilbert Spencer, serving with the British Army on the Western Front in 1914 and early 1915. The letters vividly describes how life was in the trenches through the eyes of an honest and innocent youth and of particular interest is that in the letters after Christmas 1914 he tells of the Christmas Truce how he experienced it.

This book is based on the wartime recollections of Heathcoat S. Grant, captain of HMS Canopus from 1914-1916. It is published in conjunction with the War Letters 1914-1918 series. For anyone interested in the war at sea during the First World War, Grant provides a highly readable insider's view of the action at Coronel, the Battle of the Falklands and the attempt to force the Dardanelles.

On the 100th anniversary of the start of the First World War, this is a story that so far has never been told...

Sword and Baton is a collection of 86 biographies representing every Australian Army officer to reach the rank of major general from Federation to the outbreak of World War II. This is the first of two volumes, and its scope is broad, including chaplains-general, surgeons-general and British Army officers who served with the AIF or the permanent forces. Author Justin Chadwick portrayal of these officers careers provides a lens through which he examines trends such as the development of military skills which ensured that, by the commencement of hostilities in 1914, Australia boasted a pool of well-trained, albeit, inexperienced officers. The effects of command under pressure of war and the enormous physical impact of combat are likewise portrayed in these comprehensive biographies. By the end of hostilities Australian officers had garnered immense experience and were among the best in the Allied forces. Ironically, this hard-won skill base was to be all but lost in the interwar period. Sword and Baton offers its readers more than a series of biographies. Rather, it describes a crucial period in Australian military history through the lives of the extraordinary men at its head.

These three Battleground Europe books on Ypres 1914 mark the centenary of the final major battle of the 1914 campaign on the Western Front. Although fought over a relatively small area and short time span, the fighting was even more than usually chaotic and the stakes were extremely high. Authors Nigel Cave and Jack Sheldon combine their respective expertise to tell the story of the men [] British, French, Indian and German - who fought over the unremarkable undulating ground that was to become firmly placed in British national conscience ever afterwards. When, in October 1914, the newly created German Fourth Army attacked west to seize crossings over the Yser, prior to sweeping south in an attempt to surround the BEF, two things prevented it. To the north, it was the efforts of the Belgian army, reinforced by French troops, coupled with controlled flooding of the polders but, further south, the truly heroic defence of Langemarck, for three days by the BEF and then by the French army, was of decisive importance. The village stood as a bulwark against any further advance to the river or the town of Ypres. Here the German regiments bled to death in the face of resolute Allied defence and any remaining hope of forcing a decision in the west turned to dust.

The first English translation of writings that capture the lives and thoughts of German soldiers fighting in the trenches and on the battlefields of WWI. German Soldiers in the Great War is a vivid selection of firsthand accounts and other wartime documents that shed new light on the experiences of German frontline soldiers during the First World War. It reveals in authentic detail the perceptions and emotions of ordinary soldiers that have been covered up by the smokescreen of official military propaganda about "heroism" and "patriotic sacrifice." In this essential collection of wartime correspondence, editors Benjamin Ziemann and Bernd Ulrich have gathered more than two hundred mostly archival documents, including letters, military dispatches and orders, extracts from diaries, newspaper articles and booklets, medical reports and photographs. This fascinating primary source material provides the first comprehensive insight into the German frontline experiences of the Great War, available in English for the first time in a translation by Christine Brocks.

This book reveals the impact of communications on the military operations of the British Expeditionary Force during the First World War.

Few soldiers on the Western Front had heard of the Australian Electrical and Mechanical Mining and Boring Company, even after it had been renamed the Alphabet Company by an AIF wag. Yet many knew the work of this tiny unit which numbered fewer than 300 at full strength. Despite its small size, the Alphabet Company's influence was enormous and spanned the entire British sector of the Western Front, from the North Sea to the Somme. This is the story of the Alphabeticals who, led by Major Victor Merse, DSO, operated and maintained pumps, generators, ventilation fans, drilling equipment and other ingenious devices in extreme circumstances. Given the horrendous conditions in which the troops lived and fought, this equipment was desperately needed, as were the men who operated it in the same, often nightmarish setting. This is the first account of the dynamic little unit that was the Alphabet Company, a unit that has been neglected by history for a century. It is the story of the men, their machinery and the extraordinary grit they displayed in performing some of the most difficult tasks in a war noted for the horrific conditions in which it was waged. They do not deserve to be forgotten.

This exciting 1995 collection of essays explores the inter-relationship of gender and war in Australia. Its focus is women's and men's experiences in WWI, WWII and the Vietnam War. Challenging the traditional images of men and women in wartime, this book shows that war offers opportunities that erode gender boundaries.

Major new account of the role and performance of the American army in the First World War.

During the First World War three quarters of a million British people died – a figure so huge that it feels impossible to give it a human context. Consequently we struggle to truly grasp the impact this devastating conflict must have had on people's day-to-day lives. We resort to looking at the war from a distance, viewing its events in terms of their political or military significance. The Great War: The People's Story is different. Like the all-star ITV series it accompanies, it immerses the reader in the everyday experiences of real people who lived through the war. Using letters, diaries, and memoirs – many of which have never previously been published – Isobel Charman has painstakingly reconstructed the lives of people such as separated newly-weds Alan and Dorothy Lloyd, plucky enlisted factory-worker Reg Evans and proudly independent suffragist Kate Parry Frye. A century on, they here tell their stories in their own words, offering a uniquely personal account of the conflict. The Great War: The People's Story is both a meticulously researched piece of narrative history and a deeply moving remembrance of the extraordinary acts of extremely ordinary people.
